# HOW AIA VITALITY WORKS

AIA Vitality awards you with points for doing healthy activities such as taking online health assessments, exercising, doing medical check-ups, and more. Earning a specific number of points will increase your AIA Vitality Status. As a result, you'll be able to enjoy more rewards from a wide range of AIA Vitality partners!

The more points you earn, the higher your status climbs, and the greater rewards you can enjoy—from exclusive discounts to insurance benefits across all your AIA Vitality integrated plans!

**Time to begin your journey together  
with millions of members across the world.**

# DO ONE MORE EVERY DAY

There are 4 statuses you progress through when earning points. Start at bronze and make healthy choices to get points and reach a new status to make your way to platinum. Each new level reached provides you with even better and more perks to reward you for making healthy choices.

 <p>Take one more step to achieve 7,500 steps daily</p>	 <p>Eat one more healthy meal</p>
 <p>Get one more hour of sleep</p>	 <p>Complete one more health assessment</p>

Notes:

- Points accumulate for one membership year and reset to zero on your membership anniversary.
- Your AIA Vitality Status is carried over to the next membership year. You will enjoy status-based benefits depending on either your current or previous status, whichever is higher.
