Have you ever thought about what you will leave behind?

Let's talk about your estate

Your estate includes all assets you have worked hard for that is of special legal significance in case of death.

Whether you're young or retired, single or married, you have an estate to protect.

The truth about estate tax

Your heir would need to pay estate tax within 6 months once you pass away. This can only be paid in cash.

The amount of estate tax would depend on the value of your net estate. For example, for a net estate of Php 20 million, the estate tax will be about Php 3.2 million.¹

If estate taxes are unpaid, your heir would need to pay penalties and additional interest rates.²

¹Tax rates effective Jan 1, 1998 retrieve from <http://www.BIR.gov.ph>

²Penalty is 25% of the estate tax if unpaid within 6 months. The annual interest rate is 20% for continued non-payment. ³Please consult your accountant and lawyer on the potential amount of your estate tax so we could recommend a life insurance coverage.

⁴In the future, if the Account Value is insufficient to pay for the charges, it is possible that additional payments through top-ups will be required to keep the policy in-force. ⁵The death benefit is equivalent to the higher of the Account Value or the Life Insurance Coverage.

Don't leave a burden to your loved ones. Take control and plan your estate today.
